Website evaluation checklist

Instructions:

- **Step 1:** Use the provided checklist to evaluate each of the three websites.
- **Step 2:** Take notes on the strengths and weaknesses of each site based on the criteria.
- **Step 3:** After evaluating, suggest 2-3 simple changes that could improve the UX/UI of each website. These could be changes in design, navigation, speed optimization, or mobile responsiveness.

Expectations:

- A brief evaluation of each website based on the checklist.
- Suggested improvements for each website to enhance user experience and design.

1. AirBnB		
Visual Design	**Yes or No**	**Comments**
Is the design visually appealing and professional?	☑ ~~Yes~~ ☐ No	Clean and modern interface with high-quality images that create a professional appearance.
Are the colours well-chosen and consistent throughout?	☑ ~~Yes~~ ☐ No	The colour palette is simple and consistent, supporting brand identity and readability.
Is the typography readable (font size, font type)?	☑ ~~Yes~~ ☐ No	Fonts are clear and easy to read across different sections of the website.
Is there good use of whitespace to avoid clutter?	☑ ~~Yes~~ ☐ No	Good spacing between elements helps the website feel organised and easy to navigate.
Navigation		
Is the navigation intuitive and easy to follow?	☑ ~~Yes~~ ☐ No	Users can easily browse listings and access categories without confusion.

Are the menus organised logically?	☑ ~~Yes~~ ☐ No	Menu sections are clearly labelled and grouped logically for users.
Are important links easy to find (Home, Contact, etc.)?	☑ ~~Yes~~ ☐ No	Key links such as search, login, and support are visible and accessible.
Is there a search function, and does it work well?	☑ ~~Yes~~ ☐ No	The search feature is fast, accurate and easy to use.
Mobile Responsiveness		
Does the website display correctly on mobile devices?	☑ ~~Yes~~ ☐ No	The website adjusts well to smaller screens without layout issues.
Is the layout adaptive to different screen sizes?	☑ ~~Yes~~ ☐ No	Content resizes effectively across mobile, tablet, and desktop devices.
Are buttons and links easy to tap on mobile?	☑ ~~Yes~~ ☐ No	Buttons are large enough for touch interaction and easy to access.
Loading Speed		
Does the site load quickly?	☑ ~~Yes~~ ☐ No	Pages load fast despite image-heavy content.
Are images and videos optimised for faster loading times?	☑ ~~Yes~~ ☐ No	Most media loads smoothly without affecting usability.
User Experience (UX)		
Is the purpose of the website clear within seconds of landing?	☑ ~~Yes~~ ☐ No	Users can immediately identify the website as a platform for booking accommodation and travel experiences.

Can users complete tasks (finding information, purchasing products, etc.) easily?	☑ ~~Yes~~ ☐ No	Searching, filtering, and booking properties is simple and user-friendly.
Are there any distractions (pop-ups, autoplay videos) that hinder the user experience?	☐ Yes ☑ ~~No~~	The website avoids excessive pop-ups and maintains a clean browsing experience.
Is the website accessible for users with disabilities (alt text, clear headings, keyboard navigation)?	☑ ~~Yes~~ ☐ No	Clear headings, readable text, and structured navigation improve accessibility.
Call-to-Action (CTA)		
Are the CTAs (e.g., Buy Now, Subscribe) clear and compelling?	☑ ~~Yes~~ ☐ No	Calls-to-actions are noticeable without overwhelming the user.
Is there a good balance of CTAs on each page?	☑ ~~Yes~~ ☐ No	Buttons are clearly styled and easy to identify on desktop and mobile devices.
Are buttons visually distinct and easy to click?	☑ ~~Yes~~ ☐ No	Buttons are clearly styled and easy to identify on desktop and mobile devices.

Improvements :

1. Simplify Homepage sections to reduce information overload.
2. Add clearer explanations for advanced filters.
3. Further optimize images for slower mobile connections.

2. CNN		
Visual Design	**Yes or No**	**Comments**

Is the design visually appealing and professional?	☑ ~~Yes~~ ☐ No	The website looks professional and reflects a modern news platform.
Are the colours well-chosen and consistent throughout?	☑ ~~Yes~~ ☐ No	Consistent use of red, black, and white strengthens brand recognition.
Is the typography readable (font size, font type)?	☑ ~~Yes~~ ☐ No	Headlines are very bold, clear and readable, making important stories stand out.
Is there good use of whitespace to avoid clutter?	☐ Yes ☑ ~~No~~	The homepage contains dense content which can feel visually overwhelming.
Navigation		
Is the navigation intuitive and easy to follow?	☑ ~~Yes~~ ☐ No	Categories such as world news and sports are easy to access.
Are the menus organised logically?	☑ ~~Yes~~ ☐ No	News sections are grouped clearly for users.
Are important links easy to find (Home, Contact, etc.)?	☑ ~~Yes~~ ☐ No	Main categories and breaking news links are visible
Is there a search function, and does it work well?	☑ ~~Yes~~ ☐ No	The search tool helps users quickly locate articles and topics.
Mobile Responsiveness		
Does the website display correctly on mobile devices?	☑ ~~Yes~~ ☐ No	The mobile version maintains readability and functionality.
Is the layout adaptive to different screen sizes?	☑ ~~Yes~~ ☐ No	Content adjusts properly across devices.
